

PRESS RELEASE

DSM Biologics and Crucell Announce Commercial PER.C6[®] Licensing Agreement with Gedeon Richter

Leiden, The Netherlands/Parsippany, USA, 25 November 2008 – DSM Biologics, a business unit of DSM Pharmaceutical Products, and Dutch biotechnology company Crucell N.V. (Euronext, NASDAQ: CRXL; Swiss Exchange: CRX), today announced that Hungary-based Gedeon Richter Plc. signed a commercial license agreement allowing Gedeon Richter to develop and produce certain biopharmaceuticals on the PER.C6[®] platform. Other terms of the agreement were not disclosed.

About PER.C6[®] technology

Crucell's PER.C6[®] technology platform has been developed for the large-scale manufacture of biopharmaceutical products such as recombinant proteins including monoclonal antibodies. Compared to conventional production technologies, the strengths of PER.C6[®] technology lie in its excellent safety profile, scalability and productivity under serum-free culture conditions.

About XD[™] technology

DSM's XD[™] technology has been developed as a proprietary system to drive yield improvements in mammalian systems. "XD" stands for extreme density, as the process is able to push the cell density within the bioreactor to maximum productivity.

About DSM Biologics

DSM Biologics, a business unit of DSM Pharmaceutical Products, is a global provider of manufacturing technology & services to the biopharmaceutical industry. In addition to offering world-class biopharmaceutical manufacturing services, DSM Biologics has co-exclusive rights, along with Dutch biotech company Crucell N.V., to license the high-producing PER.C6[®] human cell line as a production platform for recombinant proteins and monoclonal antibodies. The combination of the PER.C6[®] human cell line and DSM's manufacturing services provides companies with a turn-key biologic manufacturing solution reducing cost, risk and time to market.

DSM – the Life Sciences and Materials Sciences Company

Royal DSM N.V. creates innovative products and services in Life Sciences and Materials Sciences that contribute to the quality of life. DSM's products and services are used globally in a wide range of markets and applications, supporting a healthier, more sustainable and more enjoyable way of life. End markets include human and animal nutrition and health, personal care, pharmaceuticals, automotive, coatings and paint, electrics and electronics, life protection and housing.
