Organisational changes in Aktiv Kapital's UK operation

After almost 10 years of running the UK business of Aktiv Kapital, Philip Lunn has decided to step down from the role of UK CEO, with effect from 26 September, in order to adopt a different work/life balance. Whereas we do of course wish Philip well for the future outside of Group, we are also discussing projects in which he may be involved.

We have initiated a process to appoint a new Country Manager, and in the meantime those duties will be performed by Hakan Bernhard.
