All amounts are related to continuing operations unless otherwise noted

Cash collection in the 1st quarter of 2009 decreased compared to 4th quarter 2008, but was in line with previous quarters. The cost reduction program has been implemented in the 1st quarter and we see a reduction of costs compared to the 4th of quarter 2008.

Aktiv Kapital has acquired portfolios for NOK 88.4 million in the 1st quarter of 2009. Going forward, we expect that more attractive portfolios will be available in the market, than what we have seen in the 1st quarter.

Comments on the results of the 1st quarter of 2009

General comments

(All amounts in the report are related to the continuing operations unless otherwise noted. Amounts in brackets throughout the document refer to the corresponding period of 2008 unless otherwise noted)

348.6

MNOK operating revenue

Aktiv Kapital achieved operating revenues of NOK 348.6 million (NOK 370.5 million) in the 1st quarter of 2009. The shortfall in operating revenue in the 1st quarter of 2009 compared to 2008 is lower cash collection than forecasted in 2009, while the cash collection in the 1st quarter of 2008 was higher than forecasted.

Operating expenses during the 1st quarter of 2009 were NOK 226.8 million (NOK 227.0 million). Non-recurring costs of NOK 14.1 million have been expensed in the 1st quarter of 2009 relating to right-sizing of operations mainly in Norway, Spain and Canada. In addition, operating expenses have increased by NOK 8.9 million due to the weakening of the Norwegian krone in the 1st quarter of 2009 compared to the same quarter in 2008.

329.6

MNOK EBITDA

In the 1st quarter of 2009 Aktiv Kapital achieved an EBITDA of NOK 329.6 million (NOK 328.0 million) and a profit before tax of NOK 91.3 million (NOK 61.1 million).

Portfolio Collection

Total cash collection on portfolios amounted to NOK 491.8 million (NOK 489.9 million), which is an increase of 0.4% compared to the 1st quarter of 2008. Operating revenue from the portfolio segment amounted to NOK 291.5 million (NOK 312.5 million), while operating profit amounted to NOK 133.4 million (NOK 157.7 million), a decrease of NOK 24.3 million compared to the 1st quarter of 2008.

491.8

MNOK cash collection

Compared to the 1st quarter 2008, there has been a growth in collection in Austria, Switzerland and Germany of NOK 77.2 million. In addition, there was a positive effect from foreign exchange of NOK 23.1 million. This growth was partly offset by a more difficult collection environment in Spain, Sweden and UK, resulting in a decrease in collections for these countries of NOK 71.7 million.

Operating expenses for the 1st quarter were NOK 159.4 million (NOK 154.8 million). The increase is due to non-recurring costs of NOK 11.1 million related to right-sizing of operations in the 1st quarter mainly in Norway, Spain and Canada. In addition, operating expenses have increased by NOK 6.5 million due to the weakening of the Norwegian krone in the 1st quarter of 2009 compared to currency rates in the 1st quarter of 2008. The net cost reduction compared to 1st quarter 2008, when adjusted for these effects, is NOK 13.0 million.

Change in collection estimates increased by NOK 1.3 million in the 1st quarter, due to an additional quarter in the 10 year rolling forecast. During the 1st quarter of 2009, the cash collection on all portfolios was 96.4% of forecast. The portfolios acquired in 2008 are so far in total continuing to perform better than anticipated at the time of purchase.

88.4

MNOK portfolio acquisitions

The Group invested NOK 88.4 million (NOK 120.4 million) in new portfolios, net of put-backs, in the 1st quarter of 2009. The majority of these acquisitions are previously committed forward flow arrangements now in their notice period of which all are cancelled. Acquisitions by country are presented in the table on the next page.

The net book value of the portfolio of loans and receivables at 31 March 2009 amounted to NOK 4 404.6 million.

Third Party Debt Collection

Third Party Debt Collection				
<i>(All amounts in NOK thousand)</i>	Q1 2009	Q1 2008	Change	Year 2008
Operating revenue	57 099	57 600	-1 %	247 417
Operating expenses	-54 137	-53 544	1 %	-219 280
Operating profit	2 962	4 057	-27 %	28 137

Operating revenue amounted to NOK 57.1 million (NOK 57.6 million) in the 1st quarter of 2009. Revenues increased in Finland and Spain but decreased in Norway and Canada in the 1st quarter of 2008 compared to 1st quarter of 2008.

Operating expenses amounted to NOK 54.1 million (NOK 53.5 million) for the Third Party Debt Collection segment. The increase is due to non-recurring costs of NOK 3.1 million related to right-sizing of the Norwegian operations in the 1st quarter.

Operating profit in 1st quarter amounted to NOK 3.0 million (NOK 4.1 million), a decrease of 27% compared to the 1st quarter of 2008.

Net financial items

Net financial items				
<i>(All amounts in NOK thousand)</i>	Q1 2009	Q1 2008	Change	Year 2008
Net financial items	-31 724	-82 351	-61 %	-247 650
Hedging instruments	-7 616	-7 719	-1 %	-26 872
Net FX gain / loss	14 274	-30 396	N/ A	-28 352
Net financial items with cash effect	-38 382	-44 236	-13 %	-192 426

In the 1st quarter net financial items amounted to NOK -31.7 million (NOK -82.4 million). The main reason for the decrease is related to foreign exchange items, as the Norwegian krone has been strengthened compared to the Group's key currencies during the 1st quarter of 2009. In the same quarter in 2008, the Norwegian krone was weakened compared to key currencies. In addition, the interest cost in the 1st quarter of 2009 is NOK 11.2 million lower compared to the 1st quarter of 2008. The decrease of the interest cost is related to reduced interest rate and lower interest-bearing loans

and borrowings. Non-cash loss on hedging instruments increased with NOK 7.6 during the 1st quarter of 2009 as long-term interest rates are falling.

Financing

The Group's strategy is to manage and limit both currency and interest rate risk. The long-term financing of portfolio investments is drawn in the same currencies as the underlying expected future cash flow from the portfolios.

2 496

MNOK net interest-bearing debt

As such, the non-current interest-bearing loan amounts to NOK 2 585.0 million as at 31 March 2009 and reflects a multicurrency basket. The interest rate risk related to the loan is reduced through the use of a combination of interest rate swaps and caps in GBP, EUR, SEK and NOK. At 31 March 2009 approximately 48% of non-current interest-bearing debt was hedged, reducing the related interest rate risk.

The net interest-bearing debt at 31 March 2009 amounts to NOK 2 495.7 million. The Group has reached an agreement with the bank syndicate, subject to credit committee approval, regarding the current loan amortisation profile which will harmonise cash flow from portfolios and repayment of the loan facility. These discussions are expected to finalise shortly with a less aggressive amortisation profile, but may require alternative sources of limited funding.

The Group's activities are exposed to financial risks: market risk, credit and interest rate risk, currency risk, liquidity and cash flow risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. These risks are described in more detail in the annual report.

Outlook

We have experienced a decrease in collection in the 1st quarter of 2009 and we expect that this will continue throughout the rest of the year. We will continue to introduce new campaigns to specific customer segments in order to maintain a satisfactory level

Focus on collection

of cash flow. We will continue to invest, although in a smaller scale, in technology in order to enable us to collect more efficiently. For example in the summer of 2009, we will introduce a debtor web where our customers will be able to negotiate a payment plan or a settlement via the internet. We expect a significant number of customers will choose this channel as a means of communicating with us and for making payments.

At year-end 2008, we had outsourced 1 801 577 accounts to third party debt collection partners. In order to drive revenue and at the same time reduce fixed

costs, we have chosen to extend our outsourcing significantly in the 1st quarter of 2009 and at the end of the quarter we have outsourced 2 125 135 accounts. Our target is to outsource a minimum of 20% of all accounts and benchmark our operations to ensure efficiency in production.

The cost reduction plan initiated in January 2009 has been implemented during the 1st quarter. Costs have started to decrease and the total expected cost savings will be achieved according to plan. The operating expenses in March 2009 are 19% lower than the operating expenses in January 2009. We will continue to drive further cost reductions to adapt our cost base at all times to our revenue.

Cost reduction

We expect to finalise the amended loan agreement with the banks early in the second quarter of 2009. This amendment will result in an instalment profile which is more in line with the underlying cash flow from our operations. We have also chosen to reduce the facility as a result of the increased cost of funding. We maintain our expected collection in 2009 from portfolios of approximately NOK 2 billion. Based on the expected cash flow from operations and the revised loan agreement, Aktiv Kapital's acquisition capacity for portfolio purchases will be approximately NOK 600 million. We continuously monitor the attractiveness of portfolios which come to the market and will, when we believe profitable opportunities arise, acquire new portfolios.

Accounting principles

These interim financial statements have been prepared in accordance with IAS 34 and with the same accounting principles as in the annual financial statements. These interim financial statements have not been audited. The AFS segment that was sold in the 2nd quarter of 2008 has been presented as discontinued operations in the income statement, and previous periods have been restated to be comparable. The balance sheet has not been restated.
